

T21M

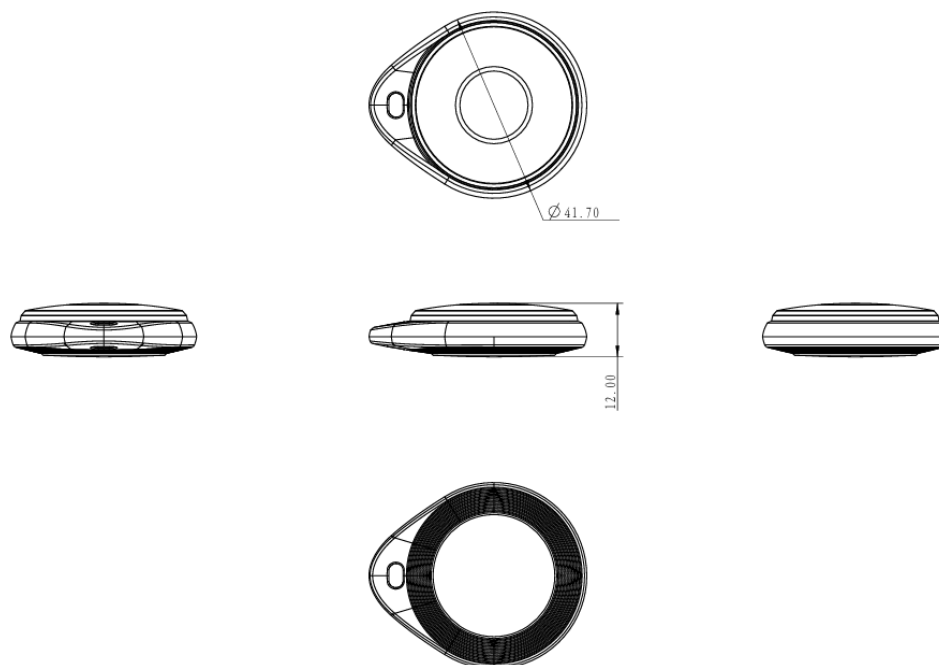

Parameters	Typical
Antenna	Internal Omni Antenna
Weight	15.5g
Dimensions	48.9*41.7*12.0mm
Shell Material	ABS+PC & TPU
Battery	Coin Cell, CR2032
Battery Life Time	9 months ^[1]
UWB RF CH	CH9: 7987.2MHz
Channel Bandwidth	499.2MHz
Operating Temperature	-20°C-60°C
Storage Temperature	-40°C-85°C
Operating Humidity	10%-90% RH, No Condensation
Ingress Protection	IP67
Function	Sound Alarm,Light Alarm

^[1] 1Hz positioning frequency, room temperature environment. Actual battery life is related to the usage environment.

Dimensions

Unit: mm

Note: The actual size may vary according to the manufacturing process and measurement method. Please refer to the actual product.
